

Privacy Policy for “Deenly: Quran & Prayer Times”

Last updated: March 10, 2026

This Privacy Policy explains how Deenly: Quran & Prayer Times collects, uses, discloses, and protects information. It is written to comply with Google Play’s User Data policy. If you have questions, contact us at Muneebtech01@gmail.com.

1. Information We Collect

Location Information (Optional)

The app may request access to your device’s precise or approximate location to calculate accurate prayer (Salat) times and determine Qibla direction. Location data is processed locally on your device to provide these features. Location data is not stored on our servers and is not shared with third parties unless explicitly stated in this policy.

Analytics and Crash Reporting

The app may include third-party services for analytics and diagnostics, such as Firebase Analytics and Firebase Crashlytics. These services may collect aggregated and anonymized information including device model, operating system version, app version, crash traces, and general feature usage. This information does not identify you personally.

No Personal Account Data

We do not require or collect personally identifiable information (PII) such as your name, email, phone number, or user account to use the core features of the app.

2. How We Use Information

Location data is used only to compute prayer times and Qibla direction on-device. Analytics and crash data are used to diagnose issues, improve app stability, and enhance features. We do not use collected information for targeted advertising.

3. Third-Party Services and Sharing

If the app includes Firebase Analytics, Firebase Crashlytics, or similar services, those providers may process anonymized analytics and diagnostic data on our behalf. Their processing is governed by their own privacy policies. We do not sell, rent, or lease personal information to third parties.

We may disclose information if required by law, to respond to lawful requests, to protect rights or safety, or to enforce our policies.

4. Data Retention

We do not retain personal location data on our servers. Analytics and crash data collected via third-party services are retained according to their policies.

5. User Controls and Rights

You can deny or revoke location permission at any time through your device settings. You may uninstall the app at any time to stop data collection. For deletion requests, contact Muneebtech01@gmail.com with the subject "Privacy Data Deletion Request."

6. Security

We implement industry-standard security measures to protect information. Because the app collects minimal PII, privacy risks are reduced.

7. Children

The app is intended for a general audience and is appropriate for all ages. We do not knowingly collect personal information from children under 13.

8. Changes to This Policy

We may update this Privacy Policy to reflect changes in practices or legal requirements.
