

Students need to logon to their google logon. The easiest way is to type gmail into the web browser, or see if the word Gmail is in the right corner.

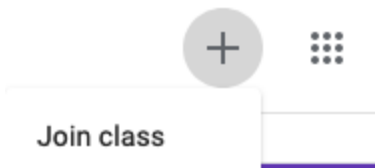

When you are in your account, you can click on the 9 dot grid in the upper right corner (also known as the waffle).

When he clicks on the waffle, he will see a number of icons with the different apps. You can then choose the one that looks like a chalkboard that says Classroom.

Any classrooms you have already joined will be there. To add a new classroom, click the Plus Sign in the top right corner next to the waffle. Then click Join class.

This will give a window to enter the class code. These generally only have lowercase letters and numbers. Watch for letters that look similar like l and 1 or z and 2 depending on how you received the information.

Join class

Ask your teacher for the class code, then enter it here.

Cancel Join

Click Join when it lights up and you are into your classroom.
