Submitted by: Egypt, Germany, Greece, Japan, Netherlands, North Korea, Norway, Pakistan, Syria, Turkey
Date: November 19, 2022

Recalling the unprecedented and unjustified aggression and military action started by the Russian Federation in Ukraine, which violates article 2 (4) of the Charter of the United Nations, and

Realizing that the purchase of Russian oil and natural gas in the current circumstances is comparable to supporting Russian aggression, and

Observing the Russian Federation's increasing threat to global energy markets and democratic stability in general, and

Aware that one of the United Nations' main goals is the maintenance of global peace and the development of friendly relations between states and increased trust in democracy, respect and protection of human rights and human dignity, and the rule of law, and

Whereas the United Nations and the entire world now face an unprecedented challenge resulting from the Russian Federation's fragrant violation of human rights and democratic stability, and

Affirming its strongest condemnation of the aggressor state's unjustified military action against a sovereign state of the United Nations and noting that this poses a threat of nuclear weapons,

<u>Be It Hereby Resolved That The General Assembly:</u>

1. Endorses the formation by states acting through or in cooperation with each other and the European Union (EU) of the Southern Stream Coalition in order to diversify gas supplies to the EU and neighboring states and in order to protect human rights, the rule of law, and democracy.

3. Appreciates that the Southern Stream Coalition will help certain states by improving security (Israel) and strengthening democracy (Syria).

4. Intensifies its support for developing states.

5. Recognizes that providing workplaces and room for investment will lead to regional and even cross-continental economic growth, political and social stability, and increased respect for human rights and the rule of law and democracy through joint cooperation activity.
6. Acknowledging that purchasing oil and gas from the Russian Federation, an aggressor state, undermines the values of the United Nations and requires securing a viable alternative, with more enduring and reliable partners of gas supplies whilst simultaneously fostering new opportunities for cooperation that promise to stabilize the region and beyond
7. The Southern Stream Coalition seeks to promote and execute the United Nations' duty to establish strong relationships between states and stimulate democratic values.
8. The Southern Stream Coalition will assist Syria in restricting Russian influence over its domestic policy, with a view to democratizing Syria.

Whereas Article 1 of the UNIVERSAL DECLARATION OF HUMAN RIGHTS states, "All human beings are born free and equal in dignity and rights. They are endowed with reason and conscience and should act towards one another in a spirit of brotherhood.", and

Whereas Article 2 section 1 of the UNIVERSAL DECLARATION OF HUMAN RIGHTS states, "Everyone is entitled to all the rights and freedoms set forth in this Declaration, without any distinction of any kind, such as race, colour, sex, language, religion, political or other opinion, national or social origin, property, birth or other status.", and

Whereas Article 7 of the UNIVERSAL DECLARATION OF HUMAN RIGHTS states, "All are equal before the law and are entitled without discrimination to equal protection of the law. All are entitled to equal protection against any discrimination in violation of this Declaration and against any incitement to such discrimination.", and

Recognizing that the ethnic Uighur group are being held in reeducation camps against their will and disappearing from their families due to their religious affiliations and cultural practices.

Saddened that they are being mentally and physically tortured, so that they will renounce their faith and learn Mandarin Chinese.

Deeply concerned by the fact that the state is subjecting the minority to biometric collections in order to monitor them and forcing women to take birth control to reduce their population.

Aware of the accusations of the Chinese-run organ market and the alleged use of Uighurs as organ donors sourced from these reeducation camps.

Be It Hereby Resolved That The General Assembly:

1. Start the investigation of the relations between the Chinese government and Uighur ethnic group through starting the Uighur Civil Rights and Ethics Committee (UCREC).

2. Requests that members of the United Nations use their funds to hire, train, and pay people to investigate these human rights violations. Funding equating to $1,750,000 USD. This will accommodate the training of investigators (approximately 30) around $1,500,000 in salaries , the transportation and house of them ($ 200,000), paying guides and resources ($20,000), and paying for needed supplies ($5,000) This will be funded through fines being paid if China is found guilty of these reeducation camps by the United Nations. If not found guilty, these funds will be paid back by the accusing united assembly.

3. If there is convincing evidence of this human right violation occurring there would be immediate removal of China from the United Nations Security Council. Paired with the immediate increase in United Nations Peacekeepers and humanitarian aid sent to evaluate the situation.

4. Encourage countries with a recent history of persecuting Shi'a Muslims, including but not limited to Iraq and Iran to back this resolution, as a gesture of amends towards the religious minority.

5. Hopes that countries with a Sunni majority, specifically Turkey, Egypt, and Saudi Arabia will launch a media campaign bringing light to the issue, creating public support for the movement within their countries, along with a Mongolian ethnic majority, specifically Mongolia.

6. The United Nations will start this process within 6 months of being passed, thus not allowing China to dramatically change the conditions upon investigators arrival.

7. This investigation will span 12 months, and will be reevaluated after that time.

Alarmed that a 2021 TIME magazine poll said that the top 10% of wealth in South Africa earn 85% of the money in the country, and

However, Article 117 of the VIETNAMESE PENAL CODES allows the government to criminalize those who are "Making, storing, spreading information, materials, items to oppose the State of Socialist Republic of Vietnam," and

Recognizing the amount of arrests in 2021, consisting of the conviction of at least 32 people for posting critical opinions about the government and sentencing them to prison. Also, police arrested at least 26 other people on charges, and
