A WANTED WAR
IS COMING

Dear Palestine Solidarity
Movement,

Nearly two years into Israel's genocide on Gaza, the official tally of martyrs stands at 64,300, with the actual death toll estimated to be closer to 400,000. Starvation and malnutrition are widespread due to a US-Israel-led famine enforced by blockade, and millions of Palestinians continue to be displaced from their lands. Since the start of the genocide, Israel has continued to deliberately target hospitals as well as healthcare and civil defense workers, decimating Gaza's healthcare and civil systems. Meanwhile, it attempts to veil these abhorrent acts and silence the truth by killing Gaza's journalists.

This month, war criminal Benjamin Netanyahu will be welcomed to New York City to speak at the United Nations General Assembly. Join us on Saturday, September 26th at 9:00 AM in Times Square as we take to the streets to demand Netanyahu's arrest and an immediate end to the genocide. As the people of Gaza continue to resist against horrific conditions of genocide, displacement, ethnic cleansing, and forced starvation, it is our responsibility to stand firmly and resolutely with them.

We refuse to allow war criminals to be welcomed into our cities. Join us as we demand sanctions on Israel, enforcement of the ICC arrest warrant of Netanyahu, and call for a people's arms embargo. The time for action is now!

We hope to see you in New York City! Click [here](#) to endorse and support the action.

Additionally, join us on the evening of the 26th for an event with [The Hague Group](#).

Please share the protest and continue to [spread the word!](#)
