

Qualifying:

This tournament will feature online and in-person qualifying using a modified number of maxouts and/or top score method typical of other CTWC regionals. However, a time limit will be imposed after the first maxout.

To qualify online, add a one hour timer to your scene and stream your Tetris capture and handcam to Twitch. You will be able to attempt a one hour qual session in-person as well for an additional \$20. Online quals must be completed and submitted by Friday, January 19th at 6 PM CT.

In-person qualifiers will not feature traditional rental stations. If you did not qualify online, you are able to attempt to qualify as often as you would like after checking in by getting in line and qualifying at the first available open station. If you achieve a maxout, you will be given a spot on stream with one hour to attempt to raise your qualifier.

There will be a \$20 entry fee. You can do a 1 hour qualifier online and if you so choose to qualify in person you can enter again for 1 hour for an additional \$20 dollars. We will keep your best run. The same goes for in person. If you complete your 1 hour after maxing out and would like another hour you can for an additional \$20.

There will be a \$20 entry fee. You can do a 1 hour qualifier online and if you so choose to qualify in person you can enter again for 1 hour for an additional \$20 dollars.
