1. Fill in the T-chart with the causes and effects that you found. Instead of writing out the whole sentences, you can use your own words (a summary) to make it shorter.

Caues	Effects

2. What is one word that you added to your notes? After using a resource to find the definition of the word, how did it help you better understand the text?

3. Why do baby mammals have a hard time in space? To answer the question, you will need three components (topic sentence, evidence, and conclusion).
