

COGNIA visit to Machine Tool Lab, 9:00 AM, Tuesday, February 9

1. WGTC Machine Tool Lab at CEC---part of Advanced MFG Tech. Apprenticeship, first German Certified Apprenticeship Program, beginning at age 15, in U.S.
2. Mr. Richard Whitman, direct from industry, teaches. He helps students gain the skills to manage the machines and the automation that increasingly do the work in today's industry.
3. Evan Goembel – part of the 3-year cohort of those in the program.
Who is your employer?
What are you paid?
What do you do for Yokogawa?
Did Yokogawa pay you even while you were doing certification projects...even while you were not producing something directly for them?
What do you ultimately get from this program?

4. Mrs. Goembel—a new program for parents to understand. Why was this the right program for Evan?

5. Dr. Steve Humphrey---Youth Apprenticeship Coordinator, Coweta County School System
What is unique about this program?

6. Lauren Edgar – Exec. Dir. Dual Enrollment, WGTC

Very successful dual enrollment program at one of our state's largest technical colleges.

20-25% of total college enrollment across the seven-county region?

What is unique about working with the Coweta County School System?

Is this program unique? Why?

Let's rejoin Principal David Dement for a wrap-up.
