

## **KWL - Schools and School Reform**

**“You know [The Game of School] is taking place when you are looking at what it will take to meet the expectations of the teacher or professor, rather than what it will take to meet your own expectations and follow your own curiosity” - JulieB, Su 13**

What do we know (believe) about schools, teaching, and learning?

What do we know (believe) about current issues in school reform?

What do we know about RI Schools?

What do we want to know more about in terms of schools in contemporary society?

What questions and schools and their role in society do we have?
