

District Technology Advisory Committee (DTAC)
Thursday, June 11, 2025
12:30 - 2:30 pm, Board Room, JPF Admin Bldg
NOTES

Agenda

12:30 PM	Welcome and Introductions of New Members or Guests Check In/ Agenda • Community builder • DTAC Roles and Responsibilities - Review and Update • Alignment to Strategic Plan - DTAC Membership
12:50 PM	Check in: • Tech Celebrations from the Field (Communicate) ○ TP had a talent show where a student showcased a “typing challenge” as a race car and the audience cheered for their progress. This program was focused on typing fluency ○ Celebrations from Dept of Technology (see slide-deck/linked above) ○ New website coming in August 2025
1:00 PM	Topics: Review: Docking Station Roll - Out/Newline Roll - Out • Pluses/Deltas and Needs Printer/copier comparison and Updates: Reviewed barriers/solutions to copy machine/personal printer issues. Messaging needs to include: • Konica’s are up 98% of the time (confirmed) • Can the Konica notify a user that the machine is jammed? (No) • buildings will need a process to decrease staff printing from printer to printer (leading to more copies) • Total cost savings communicated. Konica’s are 4x less to copy on versus a personal HP printer. • Is there a way to only see the printers/Konica’s in your own building? We have staff who print to the incorrect schools/locations, leading to waste. (yes) • HS’s have more Konica’s than MS’s

	Filter review: Reviewed all filter settings (Gavin). Worked in small groups to review all filters and access. Questions about Newline boards and blocking adds. Securly is missing: Pandora is not blocked. Microsoft Teams/v2 is unblocking access for students. Chat messaging is blocked on chat messaging sites, not websites that happen to allow chats. What about DisneyPlus or other videos?(no due to licensing) Amazon says you cannot use it in classrooms (due to licensing). Can search engines be used for guests (row 14) for safe searches only? No; Does Securly only look at “web” activity and web filters? (yes). It only shows each login, not how long the student has been on the filter. Parent concern about private messaging on websites that cannot be monitored. Recommended changes: No changes for 25/26. ITSS Responsibilities: More support in the buildings. Cell Phone Policy - Revisions/Recommendations for communicating to staff, families and students drafted for summer 2025.
2:30 PM	Wrap up & next year: ● Review online safety lessons with DTAC ● Online safety lessons needed: Catphishing, Luring, fact checking
Present: M Comstock, L.Decker, J Hendrickson, J House, G Lees, J Novelo, S Quist, J Riley, J Rutledge, S Spring, K Watkins-Gatlin, K Orm (student) D Bartlett (student), E Johnson (parent), B Bartlett (parent)	

 Processing Documents- DTAC/Cell Phones
