

Period 1 Group 7 MLA citations list

Each group member needs to type add the sources/citations that you brought to the project. They do not have to be presented by YOU in the presentation. I will check the revision history to see who actually contributed what. Do NOT have someone type for you. But you can suggest edits on someone else's work if it is not correct MLA format.

Group member names: Dayne Glover, Taylor Loew, Mikayla Chard, Noah Baird

Host(Dayne):

NORTON, BRYAN G., editor. The Preservation of Species. Princeton University Press, 1986, www.jstor.org/stable/j.ctt7zvdvr.
