HIGHLIGHTS:2021- 22

MARKING INTERNATIONAL DAYS

International days are the most powerful advocacy tools to educate people on issues of common concern and mobilise support to address them. Our efforts to mark these days are aimed at celebrating the spirit of equality and reinforcement of the achievements of humanity.

IN FOCUS: 24th JANUARY NATIONAL GIRLS CHILD DAY

Girl child globally has higher survival rates at birth; however, India is the only country where more girls die than boys. And, those who survive face gender inequalities right from their childhood. The practice of discrimination begins at home and the community role further widens the gender gap that ultimately results in unequal opportunities and discrimination.

THE SOCIETY CELEBRATED NATIONAL/INTERNATIONAL DAYS

National/International days are the most powerful advocacy tools to educate the people on issues of common concern and mobilise support to address them. Our efforts to mark these days are aimed at celebrating the spirit of equality and reinforcement of the achievements of humanity.

Celebrated National Girl Child Day-

National girl child day celebrated on 24 January 2022

At this event Principal Dr. Sangam Kapoor said "without Girls there is no future of our country . We should protect Girls and give them a safe and healthy environment in our society. " 🆗

Online poetry Recitation was also organised Dr. Jasbir recited a poem about Daughters.

Mummy ki ladli papa ki pari hoti hain beteea

Ghar ke aangan ki chehkti chereaa hoti hain betieea

Ghar ke bageecge mein foolon ka guncha hoti hai beteea

Phir jab ek din papa ka aangan chor vida hoti hain betieea

Ghar ka aangan , wo bageecha chup sa ho jaata hai

Maa ka dil har kone mein apni ladli ko dhoondta hai

Phir wo ladli wo nanhee chireea itni syaani na jaane kab ho jaate hai

Baat baat pe papa mummy ko bulaane wali wo pari

Kab apne cheekh apni jhoothi hasin ke piche chupana seekh jaati hai

Papa ki pari kab itni syaani ho jaati hai 💐🙏

<u>Celebrated International Women's Day - (08.03.2022)</u>

<u>Theme for 2022 is Gender Equality for a Sustainable Tomorrow</u>

Organised Poster Making, Logo Designing and Rangoli Making competition

<u>Celebrated World Health Day- (07.04.2022)</u>

THEME for World Health Day **"Our Planet, Our Health"**

Organised Poster Making, Slogan Writing and Prize Distribution dated 07.04.2022

The theme of this year's World Health Day 2022 was "Our Planet Our Health". To make students aware of the significance of the day and highlight the area of priority concern for WHO; a slogan-writing and poster-making Competition was organised.

Participants highlighted the unique opportunity for a green and healthy recovery from the COVID-19 pandemic by putting health and human security at the centre of the actions of nation-states through posters.

And to the enhancement in health services, environmental protection and other factors having a direct consequence for humans slogans were highlighted.

FIELD VISITS BY STUDENTS AND WORKSHOPS & FGDs ORGANISED

Gender Equity Society Members Field Visits and Findings

Society Members Interacting with Women in "Khuda Alisher"

(A Peripheral Village of the City)

Findings' Presentation by GE Society Members

Society Members' Participating in Gram Sabha Meeting with Women

Society Members' Measuring BMI of Women & Children

Key Findings:

Surveyed Respondents' Health Status

As per World Health Organization, malnutrition refers to deficiencies or excesses in nutrient intake, imbalance of essential nutrients or impaired nutrient utilisation. The society members surveyed Children under the age of 0-5 through four broad forms: wasting, stunting, underweight, and micronutrient deficiencies.

- **The share of stunted children (low height for age) was alarming 89.5%.**
- **Whereas the share of wasted children (low-weight-for-height) was 76.3%.**

- **The share of malnourished and anaemic surveyed women aged 15-49 years was 86.5%.**
- **92.5% of respondents were found underweight.**
- **Surveyed Respondents' Role in Decision-making at Home**
- **80.0% of female respondents said no effective role in financial decision-making in family matters**
- **“Decision Making Men’s Domain,” said 95.0% of respondents.**
- **Important decisions concerning property taken are taken by Male members only, said 98.0 % of respondents.**
- **No say in Health and Family Planning said by 65.7% of respondents.**

Surveyed Respondents' Role in PRI/ULBs Decision-making

- **70.0% surveyed elected PRIs/ULB members said, "No effective role in decision-making in conducting proceedings of the representative bodies.**
- **Politics is primarily male domain, by 98.0% of respondents.**
- **Important decisions concerning development or social security schemes are taken by Male members, said 99.0 % of respondents.**

Surveyed Respondents' Level of Awareness about Governments Initiatives for Women Empowerment or Welfare

- **The lack of awareness about welfare schemes, women empowerment schemes and education schemes were appalling.**
- **Beti Bachao Beti Padhao (BBBP) ensures the protection, survival and education of the girl child but 67.0% of respondents denied knowing about the scheme**
- **Their response to Mahila Shakti Kendra (MSK) scheme that aims to empower rural women with opportunities for skill development and employment was in negation.**
- **About Pradhan Mantri Matru Vandna Yojna which aims to provide maternity benefits to pregnant and lactating mothers the share of respondents knowing the scheme was 54.0%.**
- **Pradhan Mantri Ujjwala Yojana which empowers women and protects their health by providing LPG cylinders free of cost was well regarded as an effective welfare measure by 80.0% of the respondents.**
- **Other welfare schemes to promote female entrepreneurship, the Government initiated Programmes like Stand-Up India and Mahila e-Haat (an online marketing platform to support women entrepreneurs/ SHGs/NGOs), Entrepreneurship and Skill Development Programme (ESSDP). Pradhan Mantri Mudra Yojana (PMMY) provides access to institutional finance to micro/small businesses, were not well communicated and the majority of the respondents replied in negation.**
