UZAIR MANZOOR

FULL STACK WEB DEVELOPER

uzair.kayani555@gmail.com | GitHub | LinkedIn | Portfolio | Ph: +92-3450978605

SUMMARY

Junior Frontend Developer with hands-on experience building responsive web applications using React.js, Redux, JavaScript, HTML, and CSS. Passionate about creating intuitive user experiences and writing clean, maintainable code. Trained through Microverse's full-time software development program, with experience collaborating remotely, contributing to frontend projects, and continuously strengthening React development skills.

TECHNICAL SKILLS

Front-End: JavaScript, React, Redux, HTML5, CSS3
Back-End: Ruby, Rails, PostgreSQL
Tools & Methods: Git, GitHub, Netlify, Mobile/Responsive Development, RSpec, Chrome Dev Tools
Professional: Remote Pair-Programming, Teamwork, Mentoring

PROJECT EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS — Remote
Full Stack Web Developer — May 2023 – Present

Health Care Application — Users can log in with a username, browse a list of doctors, view detailed information about specific doctors, reserve appointments, add new doctors, and manage existing doctors.
- Built with: (Full-stack Dev)

SpaceTravelersHub — Worked with the real live data from the SpaceX API and built a web application for a company that provides commercial and scientific space travel services.
- Built with: (React.js, Redux.)

Math Magicians — A powerful calculator application that makes complex computations a breeze.
- Built with: (JavaScript, React.js)

Budget App —a mobile web application designed to help users efficiently manage their budgets and track expenses.
- Built with: (RubyonRails)

MICROVERSE — Remote
Mentor (Volunteer) — December 2023 – Present
- Mentored 2 or 3 junior web developers per week, providing technical support through code reviews on GitHub and also conducting meetings on Google Meet, Zoom and Slack to share ideas and knowledge.
- Proposed improvements to code organization to improve code quality and overall performance by 60%.
- Advised on maintaining motivation, including setting achievable goals and seeking support, resulting in students maintaining longevity in the program.

EDUCATION

MICROVERSE — May 2023 – Feb 2024
Remote Full Stack Web Development Program, Full-Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair-programming using GitHub, industry-standard gitflow, and daily standups to communicate and collaborate with international remote developers.
