

ClickCash™ & Email Data Monetization

As an active CORE member, you have exclusive access to one of Affiliate Mentor's most exciting features.

Introducing ClickCash™, our revolutionary system that allows you to monetize your leads - even those who don't purchase Affiliate Mentor products!

This is a cornerstone of our Commissionable List Building system and represents one of the major competitive advantages available ONLY through Affiliate Mentor.

When you generate a lead through any Affiliate Mentor capture page, two powerful actions occur automatically.

First, your leads are sent via API to your personal email service provider (ESP). Second, they're added to Affiliate Mentor's corporate autoresponder system.

All ClickCash™ monetization happens through the second pathway. You'll always maintain your leads in both the AM system and your personal ESP account from the first pathway.

Here's how the second pathway works:

For the first 14 days, leads receive our professionally crafted autoresponder series designed to welcome new members into your Affiliate Mentor business.

During this period, all clicks are directed to your personal AM affiliate link.

Starting day 15, leads who have shown engagement (opened at least two emails or clicked one link during the initial 14-day series) enter our internal monetization campaign.

This is where our Done-For-You email monetization begins. As promised, you'll earn income just by building your list - even from leads who haven't purchased any Affiliate Mentor products - simply through their engagement with our professional email campaigns.

Earnings are generated from unique clicks from Tier 1 countries (U.S., Canada, U.K., Austria, and New Zealand). Note that duplicate clicks from the same email or clicks from other countries are not compensated.

Any fraudulent activity (bots, automated clicks, etc.) will not be paid and may result in termination of AM affiliate status.

As an added benefit, all ClickCash™ monetization emails include your affiliate link in the P.S. section. Our beta testing showed sales occurring up to a year after initial lead generation - another proven strategy you'll benefit from as a CORE member!

ClickCash™ Qualification & Payouts
