

Online Pet-Friendly Sheltering Training

<https://flsart.org/petfriendly/index.jsp>

Course Overview

The Pet-Friendly Sheltering Online Training is the first of its kind to be offered in Florida. The training provides guidance to private, local and state entities on how to plan for and operate a pet-friendly shelter to ensure that individuals evacuating from a disaster with their household pets are accommodated. While this training will provide you with basic information and guidance, further training with local or state emergency management programs is essential to fully prepare for pet-friendly sheltering in your community. The Florida Department of Agriculture and Consumer Services developed this training collaboratively with the Florida State Agricultural Response Team (SART). This training is state-certified by the Florida Division of Emergency Management (Course Code FL-017).

Other Training Modules and Guides:

<https://flsart.org/training/petshelter/>

SART has additional training modules on 'Pets in Disaster' that include guidance and planning for pets-friendly evacuation shelters. The training modules are located under 'Training' on the main menu, then click on 'SART Modules' and Pets in Disasters, or go here": https://flsart.org/training/sart_training/

In-Person Pet Sheltering Training

In partnership with the Florida State Animal Response Coalition (**SARC**), SART created Awareness and Operations level classes that provide the expertise and practical experience required to become a professional disaster animal responder. Both courses are state-certified by the Florida Division of Emergency Management.* Register for classes by visiting the SARC website at www.flsarc.org

- Small Animal Emergency Sheltering: Awareness Level (Course code FL-003-RESP*)
- Small Animal Emergency Sheltering: Operations Level (Course code FL-607*)
- Train The Trainer Workshop

TRAIN WITH FLORIDA SARC

Sarasota Cat Depot, Florida State Agricultural Response Team and Florida SARC are partnering to provide training on how to save animals and operate temporary emergency shelters. Train with Florida SARC to learn how to respond to local, state and national disasters

Join us on April 22 & 23, 2023 at

FEMA Courses

<https://flsart.org/training/fema.jsp>

The following are some recommended courses offered by the Federal Emergency Management Agency (FEMA) for animal and agricultural responders.

IS-100.C: Introduction to Incident Command System

ICS 100, Introduction to the Incident Command System, introduces the Incident Command System (ICS) and provides the foundation for higher level ICS training.

This course describes the history, features and principles, and organizational structure of the Incident Command System.

It also explains the relationship between ICS and the National Incident Management System (NIMS).

IS-200.C: Basic ICS for Initial Response

ICS 200.C reviews the Incident Command System (ICS), provides the context for ICS within initial response, and supports higher level ICS training.

IS-700.B: National Incident Management System (NIMS) An Introduction

This course introduces and overviews the National Incident Management System (NIMS).

NIMS provides a consistent nationwide template to enable all government, private-sector, and nongovernmental organizations to work together during domestic incidents.

IS-800.D: National Response Framework, An Introduction

The course introduces participants to the concepts and principles of the National Response Framework.

IS-10.A: Animals in Disasters: Awareness and Preparedness

This course is intended to help animal owners, care providers, and industries to understand incident management.

IS-11.A: Animals in Disasters: Community Planning

This course provides information for groups to meet and develop meaningful and effective plans that improve the care of animals, their owners, and the animal-care industries in disasters.

IS-111.A: Livestock in Disasters

This course combines the knowledge of livestock producers and emergency managers to present a unified approach to mitigate the impact of disasters on animal agriculture.
