INTRODUCTION

Present background, literature review, research gap, novelty, objectives. Recommended 800–1500 words.

MATERIALS AND METHODS

Describe design, participants, instruments, procedures, ethics, and statistical/data analysis in sufficient detail.

RESULTS

Present findings objectively using tables and figures where appropriate. Avoid interpretation.

Tables

Number consecutively. Title above the table. Cite each table in the text.

Figures

High-resolution images. Caption below each figure. Cite in text.

DISCUSSION

Interpret findings, compare with previous studies, explain implications, limitations, and contribution.

CONCLUSION

Summarize the main findings and answer the research objectives. Avoid repeating discussion.

Acknowledgments

Recognize funding bodies and contributors who are not authors.

Funding

State funding source and grant number or 'None'.

Author Contributions

Describe each author's contribution using CRediT roles when possible.

Conflict of Interest

Declare any conflicts or state there are none.

Ethical Approval

Required for studies involving humans or animals.

Generative AI Policy

Authors must disclose any use of generative AI in writing assistance. AI cannot be listed as an author and authors remain fully responsible for the accuracy and originality of the manuscript.

References

All references must be managed using Mendeley with APA 7th (American Psychological Association) Style. At least 80% should be from the last 10 years and preferably include DOI.

Reference Style (APA 7th via Mendeley)

- Use in-text citations such as (Smith, 2024) or Smith (2024).
- Arrange references alphabetically.
- Include DOI as <https://doi.org/...> whenever available.
- Use only sources cited in the manuscript.

Note:

Please prepare your manuscript using the official journal template. The entire manuscript must be typed in Calibri (Body), 10 pt, line spacing 1.15, and follow all formatting requirements described in this guideline. Manuscripts that do not conform to the journal template may be returned to the authors before the review process begins.
