

# *School of Inquiry Knows/Need to Knows*

**Course: 2/15 Staff Development Day**

**Project/Assignment: PBL Project Design**

Know	Need to Know	Next Step
nothing really	how to plan a unit around a project relevant for kids How to integrate PBL with the Indiana science standards I am still require to address how to address kids misconceptions as they develop their projects	go through several specific examples of how it is implemented
nothing		
know enough to be dangerous	full sequence of planning a unit	listen to you...and together we will develop a unit
I know the general idea of PBL	How to design a project	
Focused on projects and authentic learning	general project layout/final outcomes	
lots	rigor	let's develop lots of rigorous projects in PCSC PBL
I do a lot of project-based activities...without a real direction	I do a lot of project-based activities, but I need to know how to build an over-riding purpose and determine the best activities to reach an accomplishment of that purpose.	TEACH ME! Looking for this to be a class like Differentiated Instruction - not just a session in an in-service...
I know that I need to know what outcome I want the class to end up with.		
I know the general ideas of	I need to know how to make	

PBL, and have implemented a few projects into my classroom over the past year.	sure that the project is effectively designed to reach all students.	
have done pbl for years	what's new	?
I know the basics... create a project that will demonstrate that students understand what it is that we want them to learn	What is scaffolding? I hear that term alot. How do I assess a project?	
need to know		
Thought I knew about PBL?	What's different then what I have been doing?	Explaining.
assessment is very rubric based	how do you have a rubric based system and make it fit with content specific common assessments every three weeks??	learn various methods of assessing
little	how do you evaluate so many students (different learning styles) at once? How many teachers are in a single classroom at a time? how do you classify a PBL class-what courses are eligible to be PBL?	
Whole program is based on PBL	Various types of assessment	Input from PBL instructors
I feel like I use projects quite a lot but want more direction in how it can be considered PBL	What kind of final evaluation/assessment is most effective	How to specifically implement into my classroom.
Basic steps in planning	Various methods for assessments including tips for efficient rubric writing.	

	equity is assessments & group grading
