

L.A. Drug & Alcohol Recovery Center

<https://losangeles.amhealth.com/>

Our dedicated staff is ready to answer your questions about addiction, detox, and recovery. We want to help your or your loved one get the help they need to start on the road to recovery.

Providing high-quality care to those who are working towards a clean and sober life is our #1 priority.

AmHealth Behavioral is certified by the Joint Commissions. We achieved this by our dedicated staff and high-end facility meeting the gold standard for treatment.

The TruPath Difference

World Class Treatment

AmHealth (a TruPath company) is the perfect environment for clients to detox with comfort. Modern furniture & fixtures, as well as semi-private rooms are key features of our facility. Get comfortable in our spacious common rooms and enjoy access to outdoor living areas.

In addition to luxury, safety is also a top priority at our center. 24/7 security and on-site staff keeps all residents safe and secure around the clock.

FMLA Assistance

The FMLA is was passed and signed into law in 1993. It gives employees up to 12 weeks of unpaid, job-protected leave during a 12-month period for certain qualifying reasons.

If you have determined that you're eligible for leave under the FMLA and have been cleared to take it, the next step is to enroll in an alcohol addiction treatment program where you can start taking steps towards sobriety.

High Recovery Success Rate

Our clients maintain long-term recovery (one year or longer) at a rate of **four times** the national average.

Nearly all our clients report a positive, rewarding and fulfilling treatment experience and say they'd recommend our programs to others who need help.

Dedicated Staff

Our detox facilities are home to the best of the best when it comes to addiction treatment professionals. From nurses and addiction therapists, our staff is dedicated to providing each and every client with the highest quality care possible.

Aftercare Program

Aftercare is extremely important to maintaining long-term sobriety. It can be an extremely stressful time for someone who is trying to transition back into their life but is still vulnerable.

Our Aftercare Program allows our alumni to maintain easy access to the counselors, case managers and Primary Therapists they met with and formed a bond with while in treatment. It also allows for clients to continue to integrate their families into their counseling and therapy, and stay actively involved with the addiction therapy community.

By adding this component to your treatment protocol, not only will it make the transition to the outside world less stressful, it will greatly increase chances for long-term success.
