

Dearest Aunt,

You are the best person in my life after my mom and dad. I salute you and respect you for the contribution that you had made to my life. You never actually differentiated me from my cousins who are my peers. You are just like my mother. Whenever you are there, you create memorable moments with us. I am quite happy today as I am celebrating your birthday. Wish you a Happy Birthday, Aunt.

Every year, I wait for this particular day as it is precious for me. It is because this is your birthday. I just cannot explain in words how happy I do feel when I see you smiling and far more contented when I find you laughing and telling stories and inspiring us to read good books and also taking us to zoos and parks for enjoyment.

I am really thankful for the beautiful gifts that you bring every time for me. Every year, you are the first person from whom I do get birthday wishes. You had also surprised with beautiful gifts during Christmas. I just remember the day when I got scolded by my father for my scores in my exams; it was you who had comforted me. You inspired me and even counseled my parents about how success and failure are part of life and it should be dealt with positively.

For your birthday, we have made a special plan for you. We will be throwing a party for you in the evening. You must come with your uncle and cousins and enjoy your birthday.

Wish you a Happy Birthday Again!

From Your Loving Nephew,

[Mention your name]
