

Yampa IWMP Project Implementation Subcommittee
Tier #2 Project 2021 Basin Implementation Plan Project

Project ID: YW-2015-0038

Project Description: New decreed instream flows

Reason for Project: This includes all newly decreed instream flow adjudications applied for by the CWCB (i.e. Red Creek instream flow is currently going through the water court process). Note while these junior decreed reaches may provide protection from future development, regional/system-wide solutions are needed to meet existing instream flow shortages.

Project Status: Implementing

Lead Proponent: Stakeholders who sponsor an instream flow for CWCB review

Lead Contact: N/A

Estimate Cost: Unknown

Water District: N/A

Project Key Words: Watershed Health, Environment & Recreation

Estimate Yield: None

Water Right Needed: Yes

Latitude/Longitude: N/A

Funding Sources:
