

My personal profile

I am Andrés Correa. I am 21 years old and I am from Yopal, Casanare, but I live in Medellín in the Floresta Neighborhood. I study arts at Universidad Nacional de Colombia in Medellín. I am in my fourth semester.

I consider myself a sociable person because I have many friends. I am also a very creative person because I like to use my imagination to create manga stories. Besides, I am a responsible student because I like studying in the mornings and then I work in a coffee shop in the afternoons.

Regarding my extracurricular activities, I go to the gym on Mondays and Wednesdays. On Fridays, I practice swimming. In my free time, when I am not in class, I take pictures and draw manga. I like reading a lot, but I also enjoy watching movies.

When I finish my undergraduate degree, I want to start a master's degree in history of art, to have a good job that allows me to travel around the world, and maybe to have my own company.
