

GGPoker to crown world's best high-roller poker player

GGPoker unveiled a range of improvements to its ever-popular Super MILLION\$ tournaments, weekly \$10,300 high-roller events that attract both enthusiastic amateur players and the best poker professionals alike.

The most important introduction is that of a SuperRanking leaderboard, which will rank players purely on their profit-and-loss results in all online and live Super MILLION\$ events and display the top 20 players. The player that finishes the year at the summit of the SuperRanking leaderboard will be crowned SuperPro and can legitimately be recognized as poker's best player.

The SuperPro will receive the following:

Awarded Super Platinum level in GGPoker's Fish Buffet loyalty program and receive the equivalent of 100% cashback at GGPoker and in all online and offline Super MILLION\$ events

Receive a custom GGPoker player avatar

Further benefits which will be revealed over the course of 2023

The players finishing in second and third place on the SuperRanking leaderboard will receive the same benefits, except the special SuperPro avatar. Players must take part in at least five Super MILLION\$ events per calendar year to be eligible for consideration.

Furthermore, GGPoker is partnering with Triton Poker and other live operators to introduce live Super MILLION\$ tournaments to their respective events. The first Super MILLION\$ Live tournament is scheduled for 1 March during the upcoming Triton Super High Roller Series stop at the Hoiana Casino in Vietnam.

New ways to qualify for Super MILLION\$ online events will be introduced. The satellites will help ensure that almost all players, no matter their bankroll, will have an opportunity to win their way into online poker's most prestigious tournaments.

First up will be a massive Super MILLION\$ 2023 satellite on 29 January, with 10 \$10,300 Super MILLION\$ tickets guaranteed and buy-in set at just \$10.

"This new edition of Super MILLION\$ will really be exceptional, including a new SuperRanking format which will be based on pure win-loss, for the first time in poker history," said Bertrand 'ElkY' Grospellier, GGPoker Global and Super MILLION\$ Ambassador. "The winners will be recognized as the best poker players of our era, and crowned GGPoker's first SuperPros. We're also expanding LIVE and bringing the Super MILLION\$ experience worldwide to everyone; I can't wait to see some new faces in the world's greatest high-roller games."

Super MILLION\$ Week recently concluded at GGPoker, with the series highlight a \$10,000,000 guaranteed Main Event, which awarded over \$11.5M in prize money, the biggest prize pool seen yet in a \$10K online tournament. Since its inception on 14 June 2020, more than \$300 million has been awarded in Super MILLION\$ tournaments, making Super MILLION\$ the dominant high-roller series in online poker.

New GGPoker players are eligible to claim the poker room's Welcome Bonus, earn even more rewards with the Honeymoon for Newcomers promotion and automatically join GGPoker's Fish Buffet loyalty program, with regular cash prizes on offer.
