

# MCTE 2023 Spring Conference

## Presenter Notes

**Session title:** *Ungrading in a Graded World*

Grading undermines student learning. However, we live in a “graded” world. So what can we do? This interactive session examines approaches we can take to, not only, remove the grading shackles that restrict student writers, but also help sustain us in a profession that leaves us drained because of our “correcting loads.”

**Presenter/s:** Neil Witikko, The College of St. Scholastica
