WHAT TO MAKE

- Hype edits for French rap fans, vibing or lip-syncing to the best part, or creative transitions that fit the mood.
- Start with the catchiest part of the song so people stop scrolling.
- Keep the song loud and clear. It is the star of the post.

CAPTION

Short and in French. Name the song, tag @zalbecino and add #publicité (not buried in a wall of hashtags). Use one of these or write your own:

- « nouveau son de ZalbecinO : ciel sallume @zalbecino #publicité »
- « ciel sallume tourne en boucle chez moi @zalbecino #publicité »
- « pourquoi personne ne parle de ciel sallume ?? @zalbecino #publicité »
