

## **Dental Assisting– Dual Enrollment Cohort 2025-2026**

Dental assistants provide quality preventative and corrective dental care under direct supervision of the dentist or dental hygienist. The dental assistant is responsible for assisting dentists and dental hygienists with patient care as well as providing certain administrative support to the office. Dental assistants work in a variety of health-care settings including dentist offices, hospitals and other similar facilities. With the national increase in health-care-related services and the national shortage of health-care professionals, the need for dental assistants is growing substantially. The 60-hour Dental Assisting Program prepares students for entry-level positions in one of the fastest growing health-care positions– dental assisting. The purpose of this course is to familiarize the student with all areas of pre-clinical dental assisting and provide training in the professional skills required to function as an assistant in the dental practice.

**Fall 2025 Schedule – August 18 - December 12**

**Monday-Thursday; 8:30am-10:30am**

**H Building, Room 124**

**OR**

**Spring 2026 Schedule – January 20-May 15**

**Monday-Thursday; 8:30am-10:30am**

**H Building, Room 124**
