TCAP Appearance

His appearance on To Catch A Predator was very short and was essentially lost to time other than this clip I found on YouTube. Apparently, he's a predator who likes to keep taking down the videos when they pop up, which is why there's just not much footage around.

Post TCAP Appearance

Due to Erik flagging every upload about his appearance on TCAP, it's impossible to find much information. Chris Hansen did an episode on Erik Pallesen in 2023 and the description reads: *Erik Pallesen (Jazzman04) is a seldom discussed predator. He showed up and wanted more than his jazz horn blown. I beg of you to watch and like this video as Erik keeps flagging it.*

He remains on the sex offender registry in Colorado as of 2021. We know this because he made a request to be removed from the registry which was denied:

<https://trellis.law/doc/167906692/order-related-document-order-proposed-order-re-petition-for-removal-from-registry>.

On the podcast episode with Chris Hansen, a woman guest stars and accuses Erik Pallesen of victimising her as well while she was underage (around 16 years of age while he was 22/23).

She described herself as a vulnerable individual, being morbidly obese and home schooled. Allegedly, he kept insisting that they have sex in her mother's bed and she said the sex got rougher each time throughout their sexual relationship (he had a habit of pushing for anal sex even though she had no interest).

He was, apparently, sentenced to a year in prison but I'm not sure if that was for the TCAP offence or for that offence due to not being able to find his records.
