

Overview

This performance task gives you the opportunity to research your chosen member and gain an understanding of what others do in the USAF/USSF and how everyone contributes to mission accomplishment.

Details

1. Identify an enlisted member that you know to brief their USAF/USSF story as related to Airmanship. This can be a past supervisor, co-worker, subordinate or someone you admire. Historical figures will not be used for this assignment.

2. After you have selected the individual you will brief about, communicate with your flight and instructor to ensure no two individuals select the same person.

4. Consider what you have learned about the Profession of Arms, Warrior Ethos, and Progressive Professionalism when preparing your presentation. Some additional items to consider are:

- What it means to be a professional
- What it means to be an effective leader and manager
- Member's contribution to the team
- How mission accomplishment depends on a network of Air and Space Professionals.

5. Once these questions are answered, you will put together a presentation, using a style of your choosing, displaying the things you learned about your chosen Air or Space Professional. This product could be a PowerPoint, story board, or any other presentation format desired.

Note: You must create a product, however, those products will not be evaluated or influence the rubric in any way. You will display the following items:

- The member's role in the Air or Space Force, describing their duties and responsibilities that align with their role.
- Their level of professionalism by how the member embodied the Profession of Arms.
- Their contribution to the team by how the member's actions, decisions and behaviors contributed to a specific event in their career.

6. Finally, the delivery portion will have certain guidelines, such as:

- Demonstrate professionalism and appropriate language.
- Presentation delivery must be within 5-7 minutes.
- Visual aids are required. (Product will not influence the rubric in any way).
