- Her design was inspired by Crowfeather(WC) but for some reason she reminds me of Emity(TOH).
- The wings under her eye are a tribute to a little bird I knew<33.
- Her reference sheet took about 2 days to make.
- She is my 3rd character, but her reference sheet was finished before my 2nd (Charlie<33).
- She created the idea to have a cyborg OC, which came from FNAF.
- She is my second Idea for an Ultron apprentice, the first one was from a little mutant girl who could change the reality.
