Exhibitor Manual Content: Floor Coverings

~ Copy text from this point onwards ~

GES is our official partner for Flooring

Here is a link to the Exhibitor Online Shop where you can view and order floor coverings – including their fully recyclable Rewind carpet: [Expresso by GES](#).

What do you get from GES?

In addition to great exhibition flooring, you can expect:

- Impartial advice on which floor covering type would best suit your needs
- Free delivery of your flooring direct to your stand
- Your chosen floor style laid, for free, by expert exhibition fitters
- Priority support from the service team throughout the exhibition

Why hire floor coverings?

Whether you have a shell scheme stand, or a space only area, adding the right floor covering can help you increase and manage footfall.

Floor coverings are also the perfect option if you want to make a more personal statement, instead of taking a standard floor as part of a package or venue flooring. If you couple floor coverings with a raised platform, you can hide wires and pipework safely too.
