

Utility Tracker Activity

Energy Star Portfolio Manager gives updated information on electric, gas and water utilities. You can access these bills and view the historic usage trends in your building by using Portfolio Manager.

Go to [Energy Star Portfolio Manager](#)

Log in to look at data for your school using the provided logins:

Elementary School Energy Star log in

UserName: LPSes

Password: LPSelem1

Middle School Energy Star log in:

Username: LPSms

Password: LPSmiddle1

High School Energy Star log in:

Username: LPShs

Password: LPShigh1

Click on your building's name to view the energy dashboard

After looking at the gas, electric and water trends, brainstorm ways you can help reduce energy consumption in your school.

ARC

Arc is another building performance tool that monitors energy, water, waste, transportation, and human experience:
