

Dear Parents,

Below is information for your children regarding distance learning in Special Area Classes. Students will be accessing all of their assignments through the Seesaw app. Students will see each special area course listed in their Seesaw account. Unlike the usual cycle day, Specials will now be held on a specific day of the week.

Monday - Art

Tuesday - Physical Education

Wednesday - Library and Health

Thursday - General Music and Instrumental Music (band/strings)

Friday - Technology

All special area instruction will be asynchronous with support for students as needed. We ask that students work on the assignments at their own pace over the course of the week, completing them before the next assignments are posted. Special Area Teachers can be reached for questions during the times below on Monday, Tuesday, Thursday, and Friday. We are also available by email and Seesaw communication tools throughout the week.
