\*\*Marian Wright Edelman, one of America's most respected teachers, has this to say about her childhood:

***My daddy used to ask us whether the teacher had given us homework. If we said no, he'd say, 'Well, assign yourself.'***

Part of growing up is learning self-discipline - learning to control yourself so that the adults in your life don't have to. And as Marian Edelman's father says, you have to start learning to "assign yourself" by deciding when to put in a little extra effort, when to get a chore done, when to do your homework without being told.

It's time to take another step toward becoming a responsible person. Assign yourself to a job that you know you need to get done.

\*\*\*Congratulations to Tiana Ferguson, Savana Olson, Jada James and Rayna Kupsky who participated in State Solo and Ensemble in Green Bay on Saturday. All of them received 2's on their music pieces. Way to go musicians!!!
