Science of Reading Professional Development for Teachers

In partnership, the College of Education and Human Development and UND's Office of Extended Learning now offer a Science of Reading professional development workshop series for North Dakota teachers needing to fulfill HB 1388 requirements.

PROGRAM HIGHLIGHTS

- Six modules focus on the Science of Reading and the Big 5 (phonological awareness, phonics, fluency, vocabulary, and comprehension)
- Practical models include resources, videos, activities, and sample lesson plans
- Instructional and assessment ideas to use with elementary students in your current or future classroom

WHAT YOU WILL GAIN

- An understanding of the Science of Reading and concepts related to literacy learning including phonological awareness, phonics, fluency, vocabulary, and comprehension
- The ability to identify and correct reading difficulties
- Occasions to explore and develop Science of Reading-embedded literacy lessons
- Opportunities to connect with K-5 teachers across the state and region

FOR MORE INFORMATION

For Program Information and Requirements:

Preregister for these online or in-person August workshops today using the QR code. You will be the first to receive a sign-up link when registration opens!
Online asynchronous modules will be ready mid-May.
