

ASFL Science Weekly Update

Week of August 28, 2023

Teacher Conferences:

Please see below for teacher emails if you would like to set up a conference.

We have great news about the Science Fair presentation boards. The PTA has agreed to purchase one for every student! We will be sending a Science Fair packet home in two weeks that will explain the full Science Fair Project.

Important Dates

September 1: Half-day for students

September 4: No school!

What Our Rockets Are Learning

Mr. Blalock's Classes

Dr. Kontak's Classes

This week, 6th grade students will be learning more about continental drift and plate tectonics. In 7th grade, students will be starting our unit on biodiversity.

Ms. Warren's Class

Hello ASFL Family. This week, in **Computer Science** we will be talking about patents, encryption, and decryption. In **Flight and Space**, we will be talking about aviation, biomimicry, weight, lift, aeronautics, thrust, and drag. In **Physical Science**, we will talk about elements and atoms and review matter. In **Energy and Environment**, we will continue with Inventors and Innovators.
