### How It Works

**Speakers (6)** — 10 min demo or talk. You get a title slide with your name, topic, and QR code. You can add more slides for your talk.

**Introducers (6)** — One per speaker. You get ~90 seconds and your own slide to talk about yourself and your work, then introduce the speaker.

**Lightning intros (5)** — 2 min each. You get a slide with your name, what you do, and a QR code (LinkedIn/website).

### Slides

Every introduction slide displayed on screen includes: - Your name and what you do - QR code (LinkedIn, website, or project link) - A funny quote (we'll ask you for one) - Speakers: also includes talk title

That's **17 intro slides** total — 6 speakers + 6 introducers + 5 lightning intros.
