Hico Robotics Team and Principles of Manufacturing students had the privilege of touring the Technip FMC facility today. They learned all about the ins and outs of a major manufacturing business and were able to see how different parts can be designed, manufactured, assembled, painted, and prepped for shipping all under one roof. This is just one of the many steps of work force education for our PTECH students.

🎓 **Career Spotlight at Hico JH!** 🐯✨

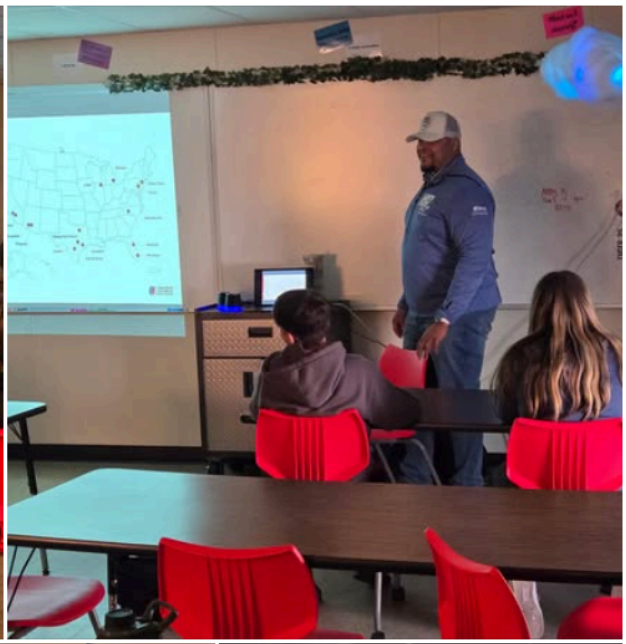

Our junior high students have been busy learning from an amazing lineup of **career speakers** over the past few weeks! From hands-on trades to professional pathways, our guests have given students a real look into the possibilities that await them. Thank you Mr. Dettman and Mrs. Branson!

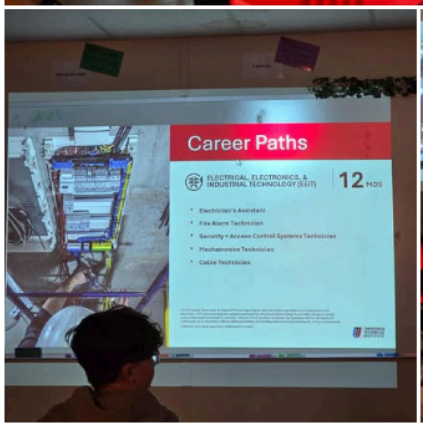

We also welcomed **Universal Technical Institute (UTI)**, who shared the incredible training programs they offer in automotive, diesel, welding, robotics, and more. Students got a first look at how UTI helps graduates launch strong careers in high-demand fields.

📅 **Exciting news:** UTI will be returning in **January** to provide a **full-day preview for our secondary students** along with a deeper, interactive look at the programs and career opportunities available.

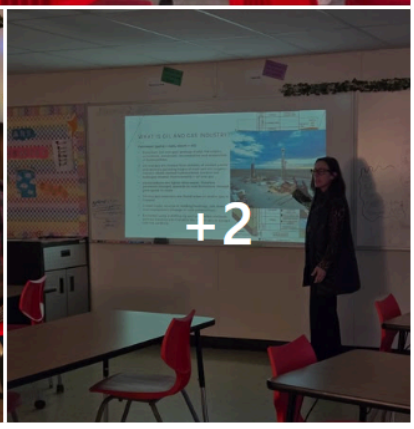

Thank you to all of our guest speakers for inspiring our Tigers and helping them explore their future pathways! 🐯💛🖤
