**8.g) Approve Resolution Naming 10 Non-Business Days for 2023 calendar year and 2024 calendar year**

Complying with the Texas Public Information Act (TPIA) requires adherence to timelines that reference business days but no formal meaning had ever been established before the last legislative session. With the passing of HB3033, there is now a formal definition of the meaning by clarifying business days. These are days other than weekends, state and national holidays. HB3033 gives districts the option to designate up to an additional 10 nonbusiness days per calendar year on which administrative offices are closed or operating with minimum

staffing to help meet the deadlines under the PIA. The dates selected reflect times at or near extended closures, which will help us meet our deadlines. These days must be approved by the board of trustees.

Because Godley ISD, like most school districts in the state, will not have the ability to comply with this new unfunded mandate, we are requesting the board approve the Resolution for Good Cause Exemption due to the lack of funding and qualified personnel. Godley ISD will continue to use officers from Godley ISD Police Department and school guardians to provide armed security.

Soma Global is an industry leading platform built for public safety. The software includes CAD (computer aided dispatch), RMS (records management system), report writing, property and evidence keeping, and offers solutions for critical incident and operations management. These systems are vital to modern day police operations. With the newly formed GISD PD, integrating an RMS, CAD, and report writing capabilities are a necessity and an absolute requirement for the competent functionality of a police department. Johnson County is currently in the process of implementing this system and as an incentive for all agencies within the county to join in order to all be on the same operating system, they have offered to cover the onboarding cost as well as the first years subscription costs. Being on the same operating system as Johnson County as well as the vast

majority of local agencies within the county will greatly enhance communications, the sharing of critical time-sensitive information, cooperation of resources, and training.

**Presenter:** Brian Hunt, Chief Safety and Well Being Officer

**Recommended Motion(s):** I move to approve the SOMA Global Public Safety Platform as presented and recommended.
