

Campus Health

Mission, Objectives, and Outcomes

Unit Mission

To provide appropriate, affordable, accessible and high-quality primary health care to eligible students, and provide a comprehensive disease-prevention and health education program in the NC State University community.

Unit Objectives and Outcomes

1. Provide quality medical care
2. Provide patient centered care
3. Deliver care in a safe and functional environment
4. Be efficient and fiscally responsible in the delivery of medical care
5. Ensure students have knowledge of and access to comprehensive health care
