

Privacy Policy

Adhan One — Prayer Times Application

Effective Date: March 22, 2026

1. Introduction

Welcome to Adhan One ("we", "our", "us"). This Privacy Policy explains how we collect, use, disclose, and safeguard your information when you use our mobile application Adhan One (the "App"), available on iOS and Android platforms. Please read this Privacy Policy carefully. By using the App, you agree to the collection and use of information in accordance with this policy.

2. Information We Collect

2.1 Location Data

The App requests access to your device's location services to provide core functionality:

- Precise and approximate location (GPS and network-based) to determine your city and calculate accurate prayer times for your location.
- Reverse geocoding to identify your city, region, and country from coordinates.
- Nearby mosque discovery using your coordinates to query publicly available map data (OpenStreetMap via Overpass API).

Your last-known location (latitude, longitude, city, region, and country code) is stored locally on your device to provide offline functionality. Location data is not transmitted to our servers.

2.2 Analytics Data

We use Google Firebase Analytics to collect anonymized usage data to improve the App experience. This includes:

- Screen views (e.g., which pages you visit within the App).
- Feature usage events (e.g., changing settings, toggling notifications, completing dhikr cycles).
- General preferences such as selected language, calculation method, and theme mode.
- Device and platform information (iOS or Android).

Firebase Analytics may collect device identifiers and IP addresses as part of standard analytics processing. This data is processed by Google in accordance with Google's Privacy Policy.

2.3 Advertising Data

The App displays banner advertisements through Google AdMob. AdMob may collect and use certain data for ad personalization, including device identifiers, IP address, and general usage

data. You may opt out of personalized advertising through your device settings. You may also purchase an in-app "Remove Ads" option to disable all advertisements.

2.4 User-Provided Information

If you use the "Contact Us" feature, you may voluntarily provide:

- A feedback message.
- Your email address (optional).
- Your selected language and platform are automatically included for support purposes.

This information is submitted to our feedback processing service (hosted on Google Apps Script) solely for the purpose of responding to your inquiry.

2.5 Purchase Information

In-app purchases (such as "Remove Ads") are processed entirely through Apple App Store or Google Play Store. We do not collect, store, or have access to your payment information. We only receive confirmation of purchase entitlements from the respective platform.

3. Information Stored Locally on Your Device

The following data is stored locally on your device using AsyncStorage and SQLite, and is never transmitted to our servers:

- Language and locale preferences.
- Theme mode (light, dark, or system).
- Prayer calculation method and prayer time settings.
- Notification preferences (enabled prayers, sound type, pre-alert settings).
- Missed prayer counters.
- Cached location data (city, coordinates, country).
- Cached nearby mosques data (refreshed every 6 hours).
- Onboarding and ad removal status.

4. How We Use Your Information

We use the collected information for the following purposes:

- To calculate and display accurate prayer times based on your location.
- To send prayer time notifications and religious event reminders.
- To find nearby mosques and display them on a map.
- To determine the Qibla direction.
- To improve App functionality and user experience through analytics.
- To display relevant advertisements (unless you purchase ad removal).
- To respond to your feedback and support inquiries.

5. Third-Party Services

The App integrates with the following third-party services:

Service	Provider	Purpose
Firestore Analytics	Google LLC	Anonymous usage analytics
Google AdMob	Google LLC	Advertisement display
Overpass API	OpenStreetMap Community	Nearby mosque data
Apple Maps / Google Maps	Apple Inc. / Google LLC	Map display and navigation
App Store / Google Play	Apple Inc. / Google LLC	In-app purchase processing

Each third-party service operates under its own privacy policy. We encourage you to review their respective policies for more information on how they handle your data.

6. Data Sharing and Disclosure

We do not sell, trade, or rent your personal information to third parties. Your data may be shared only in the following circumstances:

- With third-party analytics and advertising providers as described in Section 5, solely for the purposes stated in this policy.
- If required by law, regulation, or legal process.
- To protect the rights, property, or safety of our users or others.

7. Data Retention

Local data stored on your device persists until you clear the App data or uninstall the App. Cached nearby mosque data expires after 6 hours. Analytics data is retained by Firebase according to Google's data retention policies. Feedback submitted through the Contact Us form is retained for as long as necessary to address your inquiry.

8. Data Security

We implement reasonable measures to protect your information. All network communications are conducted over HTTPS (encrypted connections). Local data is stored using standard device storage mechanisms provided by the operating system. However, no method of electronic storage or transmission is 100% secure, and we cannot guarantee absolute security.

9. Children's Privacy

The App is not directed to children under 13. We do not knowingly collect personal information from children under 13. If we become aware that we have inadvertently collected personal information from a child under 13, we will take steps to delete such information promptly.

10. Your Rights and Choices

You have the following rights regarding your data:

- Location Access: You can deny or revoke location permissions through your device settings at any time. The App will use your last-known location or allow manual city selection.
- Notifications: You can disable notifications through your device settings or within the App.

- Advertising: You can opt out of personalized ads through your device settings, or purchase the "Remove Ads" option.
- Analytics: You can limit ad tracking and analytics through your device's privacy settings.
- Data Deletion: You can delete all locally stored data by clearing the App data or uninstalling the App.
- Contact Us Data: You may request deletion of your feedback data by contacting us.

11. International Users

The App is available worldwide and supports 83 languages. If you are accessing the App from the European Economic Area (EEA), United Kingdom, or other regions with data protection laws, please note that certain data may be processed by third-party services (such as Firebase and AdMob) in countries outside your region. These services maintain appropriate safeguards for international data transfers.

12. Changes to This Privacy Policy

We may update this Privacy Policy from time to time. Any changes will be reflected by updating the "Effective Date" at the top of this document. We encourage you to review this Privacy Policy periodically. Your continued use of the App after any changes constitutes your acceptance of the updated policy.

13. Contact Us

If you have any questions or concerns about this Privacy Policy or our data practices, please contact us through the "Contact Us" feature within the App, or reach us at:
