

## [SUNJACK 20W PORTABLE SOLAR CHARGER](#)

Great Outdoor Power Source: The [SunJack 20W Portable Solar Charger](#) is great for camping, hiking, backpacking, the beach, backyard get-togethers and anywhere you may need power without a wall outlet or generator. Use the solar charger to charge your cell phone or other USB device while sitting at the beach, hiking... Charge a SunJack Fast-Charge battery to use later at night to provide power to your SunJack CampLight, LightStick or many other USB devices. Stay charged anywhere the sun shines.

Powerful: 20 Watts of high efficiency mono-crystalline solar cells - Compatible with all USB powered devices including Apple, Android, Samsung, HTC, Windows, Blackberry and more. Works well with all SunJack products. Charges two 8000mAh Fast-Charge SunJack Battery Packs in approx. 5 hours of direct sunlight.

Compact Design: Solar Panel Folded - approx. 7.5" L x 10.25" W x 2" H; With 4 Panels Fully Extended - approx. 35.5" L x 10.25" W x 1" H (Panels are less than 1/4 inch thick. Height is added with outer mesh zipper pocket attached to one panel.) Weighs approx. 2.0 lbs.

Convenient Design: Durable black canvas; strong Velcro closure when not in use; 5 different sturdy cloth hooks - 2 on each side and 1 on the top; mesh dual-tab zipper pouch with 2 elastic band holders for small USB devices; a 2-port USB docking station; shock, vibration and weather resistant.

Stay Powered: Stay charged anywhere the sun shines. A SunJack Portable Solar Charger Panel is essential to every emergency preparedness kit - at home or in the car. A must-have during any power outage. Use with SunJack Fast-Charge Batteries to stay charged during the evening hours as well. Designed in California and backed by a one-year warranty.
