The Dating Site Godhead

By Kanyesutra

Everyone knows that dating websites have become more and more insular, as smaller and smaller sites catering to very specific niches keep springing into existence. The most obvious examples are Shiptocaptaindate, Jdate, Christian Mingle, etc, but did you know about Bronydate? Superherodate? Gearsofwar2date? [The Passions Network](#) is a factory farm for these super weird dating communities, churning out bland niche site after bland niche site using the same template for each. In their own words:

100% free access to that site...or (if interested), upgrade to 'Network Wide Access' allowing you to add additional sites that match your interests, where, hopefully, you can meet singles who share your passions.”

Thankfully, most of them are pretty funny.

"Bite Me!" A 100% free online dating & social networking site for vampires and vampire lovers. Browse the Vampire Groups to find members based on whether they are into sanguine vampirism or psychic vampirism. Meet other vampires, vampire lovers and even amateur vampire hunters. Enjoy a single location where fans of vampire related books, movies and television shows can all find one another. And for the vampire members, we even have a way to find others who enjoy the same blood type you do: Type A, Type B, Type O and even Bovine (for moral reasons).

*Please note that while members of the Un-dead might not need to worry about blood born diseases, humans do. Vampire Passions wants to make it PERFECTLY CLEAR that we do not condone the drinking of blood from human hosts. As the world progresses, we believe that Vampires should only drink animal blood (preferably without killing the animal) or blood substitutes. Eons have passed since Vampires came to be, and it is our belief that Vampires must change with time to survive. So...use the Groups area to find people you like...but do not feed on them! Or your account will be deleted!"

I'll **** you dry I'm Australian, & my family background is Welsh & Native American of the Sioux tribe. I consider myself to be a balanced person between spiritual & realist. I am not domineering, controlling or oppressive, but I am strong, carmly assertive & very patient. If you haven't already given up on looking for someone with qualities such as, good old fashioned values, cares about other people's feelings, well mannered, respectful & charming, full of kindness, empathetical, understanding, polite, open, honest, loving, sensual, loyal, confident, sweet, intelligen, dynamic, fun & funny, & will genuinely listen to you, then you're looking at the right profile, as I am such a man. I have 2 tattoos, I designed them myself, I love to cook & to entertain, I'm very giving & caring, & I'm no selfish lover, I also love being in conversations for hours, but I must warn you I can be very flirtatious. As you can see I have a flair for the theatrics, but I'm over the clubbing seen, but I still like to go out & have fun with some other wacky perverted fun funny friends of mine. I am protective of those that I care about, but not to the point of being too overly protective. I'm looking for someone that I can share good chemistry & a loving relationship with, & for the record I also like to give a lot of cuddles & cute little kisses for no apparent reason. I'm certainly not afraid of hard work or getting my hands dirty, I want to become a masseuse, but right now I'm working a fulltime job

right now that I really hate, so that I can save up enough money to study to get a Diploma of Remedial Massage & after that maybe I'll become a fully qualified Rai Ki healer as well, but it will be worth it in the end & after that I will start my own Massage Therapy business & become even more of a strong independent professional man who chooses his own hours to work. So if you like what you see then please by all means contact me, as I promise I'm worth

Honesty, Blood and Sex Sex doesn't feel like enough, no emotions are really enough. There is always something I want to break out from, to feel more, more connected to something, more honest, & in moments of kind of wanting to find something honest, I have grabbed knives & cut myself & partner across the chest, rubbing hands in our blood, gets me exhilarated. With bloody chest & racing hearts is more dangerous alive & honest. In a guy I like, long hair (waist length) - dark brown or black in colour, pale skin, brown/green/blue-green eyes, taller than me, wears black, BDSM, Spirituality. The following is an attempt at a sensible answer: I am looking for a very specific person ... whether He actually exists or not, that is the question hahaha! This makes the PERSONALITY & LOOK of the person who want to take me under their wing, and join their life with mine, so very important to me. He has to "walk the talk" - basically know what He is talking about, someone who lives the lifestyle when He can. He has to have PRESENCE - either by personality, look, tone of voice, even height! Or all of the above! I am looking for a person who takes care of their body (no one over weight or underweight), an intelligent person, who knows how to write an interesting message (email, text etc), who can hold a conversation. I look for confidence & they have to be very understanding & considerate of my lifestyle. Being spontaneous can get me worked up, but not always. You have to understand me. I am rarely awkward, difficult or bratty (I can have my moments, I won't lie!), but I like to communicate how I feel & what I want. I like the feeling that my opinion is of value. Getting into my mind that is the key to this. You have to be inside my mind to such an extent & not lost track of your own sense of self. Pain & Pleasure shall be with me always - in my thoughts, fantasies & life -

for the contracts strengthens me to behave & act in the manner (?) expects of me. (?) is
