Washington, D.C. [ZIP Code]

Dear [Congressman/Senator] [Last Name],

I am writing as a proud member of Incest AWARE, a small but committed team of volunteers nationwide, dedicated to improving incest trauma and abuse prevention, intervention, recovery, and justice. As your constituent, I urge you to support H.R. 3921, the STOP CSAM Act of 2025. This critical legislation requires companies to remove Child Sexual Abuse Material (CSAM), expands restitution to include AI-generated CSAM, and improves accountability by requiring the CyberTipline to report on efforts to prevent CSAM and identify gaps in prevention.

This bill is especially important in the fight against incest and intra-familial abuse. [Research shows](#) that CSAM involving young children is more likely to be perpetrated by a family member, and such material is also more likely to be actively traded online (Seto et al. 2018). In fact, the majority of CSAM online is produced in the child's home, often by someone the child knows and should be able to trust.

The STOP CSAM Act will help prevent this devastating abuse and provide increased restitution for survivors. In addition to targeting CSAM produced by family members, the bill also addresses youth-produced CSAM, which minors may be groomed or coerced into creating by adults and/or peers.

Protecting children from sexual abuse and exploitation must be a top priority. I urge you to support H.R. 3921 to strengthen our nation's response to these heinous crimes and to better protect vulnerable children.

Thank you for your time and consideration.

Sincerely,

[Your Name]
