We do not simply educate boys.
We forge them.

Not by accident. Not by culture. But by design.

“The LORD is on my side; I will not fear. What can man do to me?”

Psalm 118:6

WHAT MAKES US DIFFERENT

Structured masculine mentorship

High standards with accountability

Physical training integrated into development

Faith-forward leadership formation

Outdoor challenges that build courage and resilience

Real-world life and business skills

We combine discipline with encouragement.

Standards with brotherhood.

Strength with humility.

2. Bible- Building On The Rock: Book 3- Image-Bearing by Summit Ministries (Must Purchase)

Description:

Building on the Rock curriculum series is a worldview and Bible survey curriculum (for grades 1st through 5th) that cohesively presents the affirmations of the Christian worldview within the historic biblical truths of creation, fall, and redemption.

Building on the Rock is the first fully integrated worldview and Bible survey course for elementary school students. This unique curriculum is designed to help younger students begin to formulate and relate learned Bible facts with a genuine Christian worldview, while laying the groundwork for later comparative worldview studies.

Building on the Rock is designed to help students interpret knowledge and build foundational beliefs and values from a Christian perspective. In an age of competing worldviews, this curriculum will help young students formulate a biblical perspective of the world so that they will reflect the Scriptures both in their thoughts and in their actions.

Building on the Rock includes six sections of study designed in a spiral sequence that effectively integrates both worldview and biblical content. Each grade level concentrates on one of the sections and either reviews or introduces the others. One incredible advantage of this design is that students who enter the curriculum at different grade levels can be easily included without having gone through the previous grades.

Student workbooks accompany the *Building on the Rock* curriculum. Each workbook includes activities promoting personal application that will help students memorize Scripture, remember the main points, creatively apply concepts, reflect on important ideas, and participate in group discussions.
