This workshop will be an opportunity to explore addressing climate anxiety through connective practices. Gather together with other members of the Augsburg community to explore place based practices for reconnecting with ourselves, each other, and the rest of the natural world. We will start with a brief introduction at the Center for Wellness & Counseling, and then tour the Augsburg Urban Arboretum together, stopping along the way to experiment with practices for remembering and restoring connections to the larger communities of which we are a part, as well as with our own sense of grounding and vitality.
