

Implementing 2 Step Verification

Estimated Support Hours Needed: 3 Hours

(This is an average, this will vary by school or institution)

Target Audience:

- Organizations that would like to know more about Google's implementation of Multi Factor Authentication.
- Organizations that would like help rolling out 2 Step Verification for their Google users.

Security is a growing concern in Education. 2-Step Verification puts an extra barrier between your institution and cybercriminals who try to steal usernames and passwords to access sensitive data. Turning on 2-Step Verification provides a significant boost to your security posture.

Deliverables:

- Plan for implementation of 2SV using best practices
- Technical assistance in implementing
- Develop an account recovery process

Milestones:

- 30 Minute project kick off meeting
- Setup a proof of concept or pilot OU with 2SV enabled, then enforced
- Demo pulling 2SV adoption reports
- Provide technical assistance in full implementation for desired OUs

The engagement for this project is considered complete once all deliverables are given to the customer. Further questions or support that is needed would constitute a new engagement and could incur additional costs.
