

Update

The petition was delivered to the president via email Monday at noon, but we will continue collecting signatures through the Google Form until Wednesday morning, when current students will deliver a physical copy of the petition. The initial 2,400 signatures were collected without even tapping into our alumni networks, lets show the administration how much this matters to so many of us.

11/14

Hi everyone! We currently have over 2400 signatures, and are planning to deliver them to President Paxson today (Monday). We will keep the google form up so that more alumni can add their support, and if we get a significant number of additional signatures we will deliver those as well, so please feel free to continue circulating the letter in your networks.

UPDATE 6pm EST 11/12:

We have finally set up a Google Form for people to add their signatures. Make sure to include your name and graduation year. You are still very welcome to email me at mika.zacks@gmail.com if you want to connect with campus activists or offer additional support. We'd love to hear from you. If you already emailed me with your name, I will finish inputting those- no need to sign up twice.

Update: (10am EST)

First of all thanks to the hundreds of people who have been emailing us, sending messages of support, and offering their time and skills to supporting this call. We are excited to share whatever resources alumni have to offer with faculty, staff and student activists.

We'll be taking signatures until Sunday 11:59pm EST, with the hopes of delivering the letter to President Paxson on Monday. Please send your name and year of graduation to mika.zacks@gmail.com if you'd like to be added.

Feel free to share this doc on various listservs and in your networks.

Solidarity, Mika.

Below is the finalized Sanctuary Campus Alumni Letter.

Christina Paxson, President

Richard Locke, Provost

Dear President Paxson and Provost Locke:

In the wake of the presidential election, we, the undersigned Brown alumni, strongly urge you to take immediate steps to make Brown University a sanctuary campus for students, staff, and their family members who face deportation under President-elect Donald J. Trump's proposed policies.

Trump's presidency puts the undocumented members of our community at unprecedented risk. The threat to students and workers requires a concrete and tangible response from the University; words and symbolic gestures would not suffice.

There is currently a national movement led by students to assert campuses as sanctuary spaces. Brown faculty members have also called on the University to protect its students and workers by declaring Brown a sanctuary campus. We, as alumni, write in support of that call.

An internal 2011 memo shows that U.S. Immigration and Customs Enforcement officers are subject to certain restrictions upon entering college campuses unauthorized. This puts the University in a unique position, which it can and should use to protect undocumented community members from law enforcement. It is the duty of this University to ensure that it remains a place that actively protects the rights and safety of its community.

<https://www.ice.gov/doclib/ero-outreach/pdf/10029.2-policy.pdf>

As we jointly envision a safe future for our community, the sanctuary of our campus must not exclude members of our city and the broader community. Therefore, we urge Brown to support the work and demands of organizations led by undocumented people in the wider Providence community.

We once called Brown campus our home. A home is supposed to be safe. If President-elect Trump implements his promised policies and we do nothing, Brown's commitment to diversity, justice, and inclusion will be inconsequential. This is not a moment in which we can afford silence.

**Awaiting your action,
Sincerely,**

It looks like someone is messing with the document, so we froze it for the time being. If you would like to add your name, please email at mika.zacks@gmail.com and we will add you. If you would like to be added to a working group to finalize this letter, do likewise. Really appreciate all the non-trolling feedback and conversation going on here right now <3 Also in touch with both faculty and current students to see the letters and demands they are putting forth right now, so that we as alumni can support their work. Hope that sounds okay to everyone.

UPDATE: (1:30am EST) It's beautiful to see such a powerful and loving response. We've been getting messages offering their skills and knowledge as lawyers, advocates, etc. If you have skills or resources you would like to make available, we will happily pass your contacts to current students and others who would be similarly interested. Much love, Gavriel Cutipa-Zorn and Mika Zacks

UPDATE: (7am EST) We are working on finalizing the document and will post a clean version here as soon as we can. We will leave it on for a few hours to give people who have signed the letter the opportunity to read what they've signed on to, and will then pass it to activists on campus who could deliver it to the admin.

UPDATE: (5pm EST, 11/11) We have finalized a document including amazing input received. In the process of posting a google form so that more people can sign on themselves. When sending an email, please include name and year so we can add you in. Much love. Solidarity.
