Want to have a **1000 subscribers** on TikTok (TT)

I have experience which helped me have **52000 followers** in **ONE MONTH** which is insane.

I know up to 20 people who increase their views and followers in 3 weeks with my strategy. And it helps them to make passive income with this. One of the best examples is my student who got half a million subscribers from 50 of his family and friends in 2 weeks which is insane for me as well. And you know what crazy one "He is **ONLY 16 YEARS OLD** boy".

If you want to have that kind of results and **make money online** as well **this course is for you!!!**

Mate, you are focusing too much on the details. There is no emotion in your email. Follow this ratio: 80:20. Make the email 80% of feelings and 20% of details. Also, instead of doing big paragraphs create small and simpler ones.
