

## **\*\*Introduction:\*\***

My name is binarybandit, leader of the alliance FSH. Some of you may know me as that guy who wrote the Dr. Strange Epic Quest Guide. Now, i'm back for round 2, the X-Men. This guide will help you optimize the way to get through the X-Men Epic Quests in order to finish it as quickly and effectively as possible. If some parts look familiar, it's because I used the same layout as the old guide to create this one.

Also, if you see any errors or if corrections need to be made, feel free to contact me (:

**\*\*Getting Magneto\*\***

**\*\*NOTE:** Acquiring the Deluxe package while already having progressed through parts of the X-Men Epic Quest will grant you the rewards for the previous quests completed.

**\*\*F2P route:\*\***

If you want to get Magneto without paying any money, it'll take 100 days if strictly using F2P options, or 18 days if using Stark's Stash. I'm not including buying crystals directly.

**\*\*For Strict F2P( 105 Days to Complete)\*\***

25 a day from daily rewards, for 105 days, =2,625

Vibranium Timeline Battle top 10%= 200 a week, for 15 weeks= 3,000

Monthly login rewards= 100, 3 times a month=300, for 14 weeks= 1,000

6,625/6,600 crystals needed

**\*\* w/Stark's Stash (\$6 USD)(46 days to complete)\*\***

Stark's Stash= 200 x2=400

75 a day from Stark's Stash, for 46 days = 3,450

25 a day from daily rewards, for 46 days= 1,50

Vibranium Timeline Battle top 10%= 200 a week, for 6 weeks= 1,200

Monthly login rewards= 100, 4 times =400

6,600/6,600 crystals needed

**\*\*Things of Note:\*\***

If you got all the pre-release tokens from the event, you can get both Rogue and Beast to 3\*.

There is a lot of confusion when it comes to getting Phoenix Feathers and M'kraan crystals. When I have more info, i will update the guide.

Bio selectors do not work on X-men. Rank up tickets do, however.

You can do Tracking missions unlimited times a day to acquire as many shards as you need. You will stop getting x-genes after 10, though.

You can pay crystals to skip any quest. Prices vary, so I will not be including it.

**\*\*Steps:\*\***

**\*\*PSA:** Since some of these quests require doing things with daily limits, I highly advise you not to do **\*\*ANYTHING AT THE START OF YOUR DAY\*\*** until you check this guide and see how far you can progress that day. If you do any missions in-game prematurely, you might hinder your advancement by accident.\*\*

Also, getting to stages 11 and 14 in Shadowland for the first time will earn you 125 Norn Stones of Chaos in total.

An advanced player should typically be able to earn about 350 Norn Stones of Chaos a week from Shadowland and World Bosses, as well as the 125 from finishing stages 11 and 14. If starting from scratch and grinding, it should be possible then to get enough stones in 2 weeks.

[Research] Research Mental Resistance #2

Use 1,000 M'kraan Shards to finish the research mission. You can acquire these shards through various means in the game, such as M'kraan Daily Missions and the Tracking Missions. If you have the Deluxe package, the Magneto missions drop some as well.

M'kraan Daily Missions give from 20-25 shards on the highest level, for roughly 40-50 a day. Each Tracking Mission seems to give 1 a run, so you can run them as much as you want to get as many as you want.

An advanced player should typically be able to earn about 40-50 shards a day from Daily missions, and as many as they want from Tracking missions. Assuming you do all the tracking missions every day up to the x-gene limit, daily missions, and including the 200 from the previous mission, the average player should finish this in approximately 8-9 days. However, it is possible to finish in a day as long as you have enough energy for it.
