

MY MYTH CHECKLIST:

My Myth Title: How Lion became the King

My Characters: (Have at least 2).

Leo the lion (he is good and strong) and Libra a 20-year-old woman who is good and fair (balanced)

They can be opposites. One can be evil, and one can be good or one can be human, and one can be a god or any other combination of opposites you can think of.

My Setting: In a magical jungle

Where does my myth take place? On earth? In outer space? In a fantasy land?

My Myth Purpose: Why is the lion the king of the jungle?

What does my myth explain? For example: How the earth became round or why clouds are in the sky and not on the ground.

What Happens In My Myth?

Lion is lonely, and no one likes him because he is too strong. One day he finds a scale in the forest and rubs it while he is crying. Out pops a beautiful woman named Libra. Libra asks the Lion if he wants two wishes. Lion wishes to have lots of friends and to be the king of the jungle. The other animals come to him and cheer.

How does my myth explain the purpose of the thing above? For example:
'One day two people, one a god and one a mortal, were playing with a big ball of clay in the sky...'

How Does My Myth End?

The other animals come to him and cheer.

Think about ending it with a line like: 'And that's why...' that explains the purpose. For example: '...and that's why the earth is round and not square.'
