# Frequently Asked Questions

## **Will this zine be for charity or for profit?**

Currently, we plan for this zine to be for profit. This is subject to change, but will be finalized upon Contributor Applications opening. As of May 25, 2022, we have ultimately decided on For Charity. But compensation remains the same: Contributors will receive a digital copy of the zine, and if budget permits, a physical copy of the zine and merch included.

## **How will you be running the zine?**

Communications and zine work will primarily be run through a Discord server. It will be required for applicants to have a Discord account to keep up with zine announcements and communications. But we are open to other methods of communication and participation (twitter DMs, email, etc) if need be.

## **Will there be guest contributors?**

We do currently have plans to invite some guest artists. We will be reaching out to them soon!

## **Do you have more information about the mods?**

We will be formally adding mod information to this document but you can follow our twitter for when they will be introduced! Included will be information about their previous experience, but you can also check them out personally under the **Mods** section of this document.

## **What is the rating on the zine? Will NSFW be allowed?**

This is a SFW project. All art submissions as well as communications through the server will remain as such.

## **Are ships allowed?**

This is a general focus zine. While we welcome other characters to be featured in your pieces, we ask that you keep any relationships platonic.

## **I have a question that's not here in this FAQ, where can I contact you?**

You can send all questions to our twitter! DMs are open for questions.
