

Rules for using The Chalkeaters' original content

Yes, you can use our songs, art and animations in your own work, but you must follow these rules.

1. If you use our song and/or our video, you must put the link to our original YouTube video **and** the song's official url in the description of your work.
Example song url: https://band.link/lock_me_up. This url can usually be found at the top of our video description.
2. If you use our song in your original music video, or song cover, or any other form of original art, and it's present in more than 50% of your video or song, you must put our name ("The Chalkeaters") in the title of your video/song.
3. Re-uploading of our videos is forbidden.
4. You cannot sell our original content or use it for commercial purposes.
5. *We don't restrict the monetisation of YouTube videos that use our songs personally, but as of December 2021 we do use the Content ID system, which means that your upload can get demonetised automatically. If this happens, please contact us via contact@thechalkeaters.com with a link to your video and a brief description and we'll consider putting it on a whitelist.*
